AUTHOR INDEX

Birky, M. M.
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Brzozowski, Z. K.
Fire Retardant Bisphenolic Polymers, p. 218

Chance, L. H.
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Chien, W. P.
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Deets, G. L.
Flame Retardancy of Styrene Polymers, p. 26

Drake, Jr., G. L.
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Einhorn, I. N.
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Gonzales, E. J.
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Green J.
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Hilado, C. J.
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Howarth, J. T.
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Kanakia, M. D.
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Kerst, A. F.
Toxicology of Tris-(2,3-dibromopropyl) Phosphate, p. 205

Kuryla, W. C.
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Larsen, E. R.
Mechanism of Flame Inhibition I: The Role of Halogen, p. 4

Lindstrom, R. S.
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

McLaughlin, R. W.
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Mayhan, K. G.
Magnesium Oxychloride as a Fire Retardant Material, p. 243

Montle, J. F.
Magnesium Oxychloride as a Fire Retardant Material, p. 243

Proops, W. R.
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Pyrovatex, C. P.
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Reeves, W. A.
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Schaffer, E. L.
Effect of Fire-Retardant Impregnations on Wood Charring Rate, p. 96

Schwarcz, J. M.
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Seader, J. D.
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Sheth, S. G.
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Sidman, K. R.
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Sobolev, I.
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

Stepniczka, H. E.
Flame-Retarded Urethane Foams, p. 61

Vail, S. L.
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Versnel, J.
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Weil, E. D.
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Woycheshin, E. A.
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

SUBJECT INDEX

Additives, Flame Retardant
Flame Retarding Plastics with Halogen-Containing Compounds, p. 185

Allyl Phosphorus Esters
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Alumina Hydrate
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

Aluminum Hydroxide
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

Antimony-Based Fire-Retardant Additives
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Antimony Compounds
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Antimony Oxide
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78
Flame Retardancy of Styrene Polymers, p. 26

Antimony-Silicon Based Fire-Retardant Additives
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Bisphenolic Polymers
Fire Retardant Bisphenolic Polymers, p. 218

Boron Compounds
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Bromine
Mechanism of Flame Inhibition I: The Role of Halogen, p. 4

Burn Statistics
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Cellulose
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Char Formation
Effect of Fire-Retardant Impregnations on Wood Charring Rate, p. 96

Chloral Phenol
Fire Retardant Bisphenolic Polymers, p. 218

Chlorobenzene
Fire Retardant Bisphenolic Polymers, p. 218

Coatings
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Combustion
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Crosslinking
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Crosslinking Agent
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Design
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Dielectric Properties
Fire Retardant Bisphenolic Polymers, p. 218

Diethyl Phosphoramidates
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Durability to Laundering
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Fillers
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

Fire Exposure
Effect of Fire-Retardant Impregnations on Wood Charring Rate, p. 96

Firemaster ® LVT23P ®
Toxicology of Tris(2,3-dibromopropyl) Phosphate, p. 205

Fire-Retardant Additives
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Fire-Retardant Impregnations
Effect of Fire-Retardant Impregnations on Wood Charring Rate, p. 96

Fire-Retardant PVC
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Fire-Retardant PVC, Electrical Formulation
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Fire Retardants
Fire Retardant Bisphenolic Polymers, p. 218
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Flame Inhibition
Mechanism of Flame Inhibition I: The Role of Halogen, p. 4

Flame Retardance
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p, 142

Flame Retardants
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152
Flame Retardancy of Styrene Polymers, p. 26
Flame Retarding Plastics with Halogen-Containing Compounds, p. 185
Toxicology of Tris(2,3-dibromopropyl) Phosphate, p. 205

Flammability
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Flammability Standards
Flame-Retarded Urethane Foams, p. 61

Flammability Tests
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Fluorine
Mechanism of Flame Inhibition I: The Role of Halogen, p. 4

Foams
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Formaldehyde Release
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Fyrol® 76
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Fyrol ® Bis-Beta
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Halogen Compounds
Flame Retarding Plastics with Halogen-Containing Compounds, p. 185

Halogens
Mechanism of Flame Inhibition I: The Role of Halogen, p. 4

Halogen Synergists
Flame Retardancy of Styrene Polymers, p. 26

Magnesium Oxychloride
Magnesium Oxychloride as a Fire Retardant Material, p. 243

Markets, Urethane Foams
Flame-Retarded Urethane Foams, p. 61

Match Test
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Mechanisms, Fire Retardance
Magnesium Oxychloride as a Fire Retardant Material, p. 243

Metal Oxides
Flame Retardancy of Styrene Polymers, p. 26

Monomers, Phosphorus-Containing
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Oxygen Index
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142
Flame Retarding Plastics with Halogen-Containing Compounds, p. 185

Phosphorus Compounds
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam, p. 175

Plastics
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Polyolefins
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Polyols, Flame Retarded
Flame-Retarded Urethane Foams, p. 61

Polystyrene Foams
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Polyurethanes
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Processing
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Reactive Flame Retardants
Flame-Retarded Urethane Foams, p. 61

Sleepwear
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Smoke
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Smoke Suppressant Additives
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Smoke Suppressant PVC
Fire-Retardant and Smoke-Suppressant Additives for PVC, p. 78

Smoke Suppressants
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

Specific Plastics, i.e., Polyolefins, ABS, etc,
Effects of Flame and Smoke Retardant Additives in Polymer Systems, p. 152

Stiffness
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142

Styrene Polymers
Flame Retardancy of Styrene Polymers, p. 26

Test Methods
The Effects of Fire Retardants on the Combustion of Rigid-Urethane Foams, p. 31

Tests, Toxicity
Toxicology of Tris(2,3-dibromopropyl) Phosphate, p. 205

Textile Flame Retardants
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Thermal Properties
Fire Retardant Bisphenolic Polymers, p. 218

Thermoplastics
Alumina Hydrate as a Flame-Retardant Filler for Thermoplastics, p. 13

THPC-Amide
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

THPC-Urea
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

THPOH
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

THPOH-NH_3
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Toxicology
Toxicology of Tris(2,3-dibromopropyl) Phosphate, p. 205

Trimethylphosphoric Triamide
A Look at Flame Retardants Based on Phosphorus Compounds, p. 110

Tris(2,3-dibromopropyl) Phosphate (TBPP)
Toxicology of Tris(2,3-dibromopropyl) Phosphate, p. 205

Urethane Foam, Rigid
Boron and Antimony Compounds as Flame Retardants in Rigid Polyurethane Foam , p. 175

Urethane Foams
Flame-Retarded Urethane Foams, p. 61
Flame Retarding Plastics with Halogen- Containing Compounds, p. 185

Vinylphosphonates
Phosphorus-Containing Vinyl and Allyl Monomers in Flame Retardancy, p. 125

Wood Charring Rate
Effect of Fire-Retardant Impregnations on Wood Charring Rate, p. 96

Wrinkle Recovery
Dimethyl and Diethyl Phosphoramidates as Flame Retardants for Cotton, p. 142
